The Queen has been pleased to direct that the following Regulations respecting Foreign Orders and Medals shall be substituted for those now in force:

Regulations respecting Foreign Orders.

1. No Subject of Her Majesty shall accept a Foreign Order from the Sovereign of any foreign country, or wear the Insignia thereof, without having previously obtained Her Majesty's permission to that effect, signified by a Warrant under Her Royal Sign Manual.

2. Such permission shall not be granted to any Subject of Her Majesty, unless the Foreign Order shall have been conferred in consequence of active and distinguished Service before the Enemy, either at Sea or in the Field; or unless he shall have been actually and entirely employed, beyond Her Majesty's Dominions, in the Service of the Foreign Sovereign by whom the Order is conferred.

3. The intention of a Foreign Sovereign to confer upon a British Subject the Insignia of an Order, must be notified to Her Majesty's Principal Secretary of State for Foreign Affairs, either through the British Minister accredited at the Court of such Foreign Sovereign, or through His Minister accredited at the Court of Her Majesty.

4. If the service for which it is proposed to confer the Order has been performed during War, the Notification required by the preceding Clause must be made not later than two years after the exchange of the Ratifications of a Treaty of Peace.

If the service has been performed in time of Peace, the Notification must be made within two years after the date of such service.

5. After such Notification shall have been received, Her Majesty's Principal Secretary of State for Foreign Affairs shall, if the case comes within the conditions prescribed by the present Regulations, and arises from naval or military Services before the Enemy, refer it to Her Majesty's Principal Secretary of State for the War Department, previously to taking Her Majesty's pleasure thereupon, in order to ascertain whether there be any objection to Her Majesty's permission being granted.

A similar reference shall also be made to the Commander-in-Chief, if the application relates to an Officer in the Army, or to the Lords of the Admiralty, if it relates to an Officer in the Navy.

6. When Her Majesty's Principal Secretary of State for Foreign Affairs shall have taken the Queen's pleasure on any such application, and shall have obtained Her Majesty's permission for the person in whose favour it has been made to accept the Foreign Order, and wear the Insignia thereof, he shall signify the same to Her Majesty's Principal Secretary of State for the Home Department, in order that he may cause the Warrant required by Clause 1 to be prepared for the Royal Sign Manual.

When such Warrant shall have been signed by the Queen, a Notification thereof shall be inserted in the Gazette, stating the service for which the Foreign Order has been conferred.

7. The Warrant signifying Her Majesty's permission may, at the request and at the expense of the person who has obtained it, be registered in the College of Arms.

8. Every such Warrant as aforesaid shall contain a Clause providing that Her Majesty's licence and permission does not authorize the assumption of any style, appellation, rank, precedence or privilege appertaining to a Knight Bachelor of Her Majesty's Realms.

9. When a British Subject has received the Royal permission to accept a Foreign Order, he will at any future time be allowed to accept the Decoration of a higher Class of the same Order, to which he may have become eligible by increase of rank in the Foreign Service, or in the Service of his own country; or any other distinctive mark of honour strictly consequent upon the acceptance of the original Order, and common to every person upon whom such Order is conferred.

10. The preceding Clause shall not be taken to apply to Decorations of the Guelphic Order which were bestowed on British Subjects by Her Majesty's predecessors, King George IV. and King William IV., on whose heads the Crowns of Great Britain and of Hanover were united.

Decorations so bestowed cannot properly be considered as rewards granted by a Foreign Sovereign for services rendered according to the purport of Clause 2 of these Regulations. They must be rather considered as personal favours bestowed on British Subjects by British Sovereigns, and as having no reference to services rendered to the Foreign Crown of Hanover.

Regulations respecting Foreign Medals.

1. Application for permission to accept and wear Medals which, not being the decoration of any Foreign Order, are conferred by a Foreign Sovereign on British Subjects in the Army or in the Navy for military or for naval services, should be addressed, as the case may be, to the Commander-in-Chief, the Master-General of the Ordnance, or the Lords of the Admiralty, who, if they see fit, may submit the same to Her Majesty's Principal Secretary of State for Foreign Affairs for Her Majesty's sanction; upon obtaining which, they may grant such permission without any other formality.

2. Permission to wear a Foreign Medal cannot be granted to a British Subject, unless such Medal is bestowed for military or naval services performed by the command or with the sanction of Her Majesty. But no permission is necessary for accepting a Foreign Medal, if such Medal is not to be worn.

Foreign Office, May 10, 1855.

VICTORIA R.

WHEREAS we have judged it expedient to revise those parts of our Royal Warrant of the 1st July, 1848, which regulate the rates of pay of the Farrier Major and Farriers, and the rate and appropriation of the Farriery Allowance to Regiments of Cavalry and other mounted Corps of our Army:

Our will and pleasure is, that in all Regiments of Cavalry and other mounted Corps (the Royal Artillery and the Royal Engineer Train excepted) the pay of the Farrier Major, Farriers and Shoeing Smith, of which latter class there shall be one to each Troop to act as assistant to the Farrier, shall, from the date of this our Royal Warrant, be as follows, viz.:—

	Life Guards.	Horse Guards.	Cavalry, including Military Train.	Cape Mounted Riflemen.
	s. d.	*s. d.*	*s. d.*	*s. d.*
Farrier Major	4 0 a day	3 9 a day	3 8 a day	3 4 a day
Farrier	3 2 „	2 11 „	2 6 „	2 3 „
Shoeing Smith	2 7 „	2 4 „	1 11 „	1 8 „

The Farrier Major, while serving, shall have the rank and clothing of a Quartermaster Serjeant, and on discharge the pension of that rank.

The Farrier, while serving, shall have the relative rank and the clothing of Serjeant, and on discharge a special rate of pension equal to that of Serjeant.

The Shoeing Smith shall be of the rank of Private.

The Farrier and Shoeing Smith shall be entitled to all the advantages of the Good Conduct Regulations.

The Farriery Allowance for all services, including the Royal Artillery and Royal Engineer Train, shall be fixed at one halfpenny a day for each effective Troop horse on Home Service, which is to be paid to the Troop or Battery Farrier for the provision of iron, fuel and tools.

When a Regiment or Detachment shall proceed on Foreign Service, the Farriery Allowance shall cease from the date of disembarkation, the supply of shoes and shoeing tools being then made from the public Stores. The shoes on the horses' feet at the time of landing shall be considered the property of the public, for which an equivalent will have been received by the Farrier from the halfpenny a day allowed for each horse while on board ship.

General No. 6,

CIRCULAR, No. 552.

War Office, 17th February, 1860.

HER MAJESTY having been pleased by Warrant, dated 7th February, 1860, to sanction a new Establishment for Barrack Masters at home and abroad constituted upon the principles and governed by the Regulations in the several Schedules annexed thereto,

A copy of the same and a list of the members of the establishment in the new classes are forwarded by desire of the Secretary of State for War for the information and guidance of all concerned.

The objects of the changes to which Her Majesty's Warrant gives effect are—

To impart a general stimulus to the Service by affording facility and opportunities for the promotion of meritorious Officers.

To make the Officers of the Department moveable, and thereby to facilitate the selection of Officers for the places for which they are most fit, independently of the accidental circumstances of their original appointment.

To establish a gradation of rank in the Service corresponding to the responsibilities and remuneration of the Officers respectively.

This Warrant will take effect from the 1st January, 1860.

B. HAWES.

VICTORIA R.

WHEREAS it is expedient that various alterations should be made in the system under which Barrack Masters are appointed, paid and promoted under the orders of our Secretary of State for War, and governed by the Regulations of our late Master General and Board of Ordnance, dated 14th January, 1828, and of various subsequent dates; and whereas certain changes are contemplated in the duties of Barrack Masters, whereby additional labour and responsibility will devolve upon them;

2. We do hereby declare our royal will and pleasure, that from henceforth a classification of Barrack Masters shall take place, as laid down in Schedule A. annexed hereunto, and that the ranks, rates of daily pay and emoluments therein specified be substituted for the existing ranks, rates of daily pay and emoluments; and further, that the establishment of Barrack Masters shall be governed by the regulations contained in Schedule B.

3. And whereas certain of our Barrack Masters may be in actual receipt, under former regulations, of higher rates of pay than those allotted to the classes in which they will serve under this our Warrant, it is our royal will and pleasure that such higher emolument shall continue to be received on the conditions specified by the regulations contained in Schedule B.

4. And we do further direct that in any special case not provided for in this our Warrant, our Secretary of State for the time being may grant such additional emolument as the circumstances justify, the consent of the Lords Commissioners of our Treasury being previously obtained.

5. We do likewise empower our Secretary of State for War for the time being to make such alterations and revisions in the proportions of the several classes constituted by this our Warrant, or to increase the same (with the sanction of the Lords Commissioners of our Treasury) to such extent as from time to time may be expedient for the public service.

Given at our Court at St. James's this 7th day of February, 1860, in the 23rd year of our Reign.

2. The relative ranks laid down confer no military authority, and will not entitle Barrack Masters to sit as Presidents of Military Boards or of Courts of Enquiry.

3. No Barrack Master will be appointed after forty-five years of age.

4. All new appointments will be made to the lowest class.

5. In the case of Barrack Masters appointed from this date, the rates of pay herein laid down shall be received to the exclusion of every other emolument, civil or military, except of pensions on account of wounds received on service.

6. A period of not less than two years' actual service in any class will be requisite to render a Barrack Master eligible for promotion.

7. Promotion will only be made to the class immediately above that in which the Officer is serving.

8. It will be distinctly understood that the position of a Barrack Master in his class confers on him no claim to promotion as a consequence of that position. Due weight will be given to the claims of Officers on the score of long and faithful service; but the primary ground of advancement in the Service will be personal merit, as evinced by zeal, ability and general good conduct.

9. Barrack Masters, who shall enter the Service after the date of this Warrant, will, in the absence of exceptional circumstances, on their attaining the age of sixty-five, be placed on the retired list, with such amount of pension as may be awarded in each case by the Lords Commissioners of Her Majesty's Treasury, in accordance with the regulations existing on the subject.

10. Barrack Masters, on appointment, will be required to nominate two sureties in the sum of 150*l.* each, and to give bond in their own person for 300*l.*

On promotion to the 2nd Class, they will, in lieu of the above, be required to nominate two sureties in the sum of 250*l.* each, and to give bond in their own person for 600*l.*

11. Barrack Masters, as arranged in the new classes, will receive the minimum pay of their respective classes, except in the following cases:—

(*a*) Barrack Masters, whose present rate of pay exceeds the minimum of the class

CIRCULAR, No. 552—*continued.*

to which they will now belong, will continue to receive that rate of pay until, under the provisions of this Warrant, they shall acquire a superior rate.

(*b*) Barrack Masters, whose rate of pay has for five years been equal or superior to the minimum of the class to which they will now belong, will receive at once the maximum of that class.

N.B.—Barrack Masters, who for a less period than five years have been in the receipt of a rate of pay equal or superior to the minimum of the class to which they will now belong, will be permitted to count that period towards the attainment of the maximum rate of the class.

This will apply in cases of promotion, should the pay of the Barrack Master be equal or superior to the minimum of the class into which he is promoted.

12. Barrack Masters will annually prepare and submit to the Officer commanding the District or Station a form of report drawn up in accordance with that annexed (C.), with a request that he will fill in the column headed for the purpose, and that he will transmit it to the Secretary of State for War, so as to arrive in the War Office not later than the 1st January of each year. At Home Stations not under a General Officer of a District or a Commandant, this form of report will be transmitted by the Barrack Master to the Quartermaster General, Horse Guards, with a similar request.

13. The Certificate D. for increase of pay for length of service will be prepared by the Barrack Master as soon as it becomes due, and for Home Stations will be transmitted to the Inspector General of Fortifications.

For Foreign Stations it will, previously to transmission, be submitted for the signature of the Officer commanding, and a duplicate certificate is to be attached to the Barrack Salary List, furnished to the Military Accountant, who will forward it with the account in which the increase is charged.

No increase of pay for length of service will be given without the receipt of these certificates.

14. The pay of Officers upon first appointment to the Service will commence as follows:—

If appointed to a Home Station, from the date of joining duty.

If appointed to a Foreign Station, from the date of embarkation.

15. All local allowances to Barrack Masters serving abroad, not mentioned in these regulations, will be drawn from the date of arriving at to that of quitting the Station. Allowances granted for the performance of any special duty will be issued only during the performance of that duty.

16. Each Barrack Master serving abroad is to be furnished by the Military Accountant, on quitting his Station, with a certificate, showing to what date inclusive his pay and allowances have been paid. Similar information is likewise to be furnished to the Accountant General, and, in cases of removal from one Foreign Station to another, certificates are to be furnished to the Military Accountant at his new Station, to be attached to the salary list in which his next issue of pay is included. To prevent delay in the settlement at Head Quarters or at Foreign Stations of any claims, Barrack Masters are to obtain from the Captains of the vessels in which they are conveyed certificates showing the date of their embarkation or disembarkation.

17. The allowances for house-rent, fuel and light at Home Stations will, when issuable, commence from the date of disembarkation from Foreign Service, provided the Barrack Master proceed at once to the Home Station to which he shall have been appointed.

If he go on leave before joining, the allowance will commence when he commences duty.

This latter rule will also apply in cases of first appointment.

A Barrack Master in receipt of allowance for house-rent, fuel and light at a Home Station will, when ordered abroad, be permitted to draw it up to the date of embarkation, provided he embark without delay; otherwise it is to cease from the date of his quitting his Station.

18. The allowances fixed by these regulations for house-rent, fuel and light at Home Stations will be ordered for payment by the Accountant General, through the local accountant or otherwise, on the receipt of the claim, made out and certified according to Form E., annexed.

19. When a Barrack Master is granted leave of absence on private affairs, no additional expense for the performance of his duties will be allowed to fall upon the public, except in cases where the Barrack Master shall have served abroad continuously for

seven years immediately before the leave is granted, when the subject will be specially considered.

20. When a Barrack Master is granted leave at the recommendation of a Medical Board, half of the minimum pay of the class in which the Barrack Master is serving will be allowed to the person, if not in the Department, who may be appointed to perform the duties, the Barrack Master drawing at the same time full pay. The period for which full pay may be thus drawn will be specially decided in each case, but it is never to exceed six months, calculating from the date of the Officer arriving in England, or if serving there from the date of his ceasing to perform duty.

He will then receive half his pay only.

At the expiration of a further period of six months, if the Officer be still unable to serve, his case will be disposed of under the provisions of the Superannuation Act.

21. Every Officer, who shall enter the Service after the date of this Warrant, will, on removal from one Station to another, be only entitled to the ordinary regulated passage and travelling allowances.

Every Officer, who shall have entered the Service before this date, will be permitted to receive the following allowances in addition to the above, viz.:—

A free passage (subject to the regulated charges for messing) and travelling expenses for his wife and children, the charge against the public to be governed in each case by the regulations that are applicable to the Officer himself.

In addition to the quantity of baggage allotted by regulations according to his rank he will be allowed:—

For his wife and children under fourteen years of age ...	6 cwt.
For each child exceeding fourteen years of age	½ „

He will also be permitted to have his furniture conveyed at the public expense according to the following scale:—

For an Officer above the relative rank of Captain, an allowance not exceeding	3 tons
For his wife, an allowance not exceeding	1 „
For his children	1 „
For an Officer of the relative rank of Captain, an allowance not exceeding	2 „
For his wife, an allowance not exceeding	½ „
For his children	½ „

For this furniture the ton will be reckoned as equal to 100 cubic feet.

PRIVATE TUITION BY ARMY SCHOOLMASTERS.

War Office, 5th March, 1860.

IT having been brought to the notice of the Secretary of State for War that several Schoolmasters are in the habit of giving instruction to private pupils to a greater extent than is permitted by Article 52 of the Army School Regulations, which practice has been found to interfere with the Schoolmaster's proper attention to his Military School duties, it has been decided that in future no private tuition whatever shall be undertaken by Army Schoolmasters, unless previously sanctioned, upon application through an Assistant Inspector of Army Schools, by the Secretary of State for War at home, or by the Officer commanding the Troops through a Local Inspector at Foreign Stations.

Any breach of this regulation will be regarded as disobedience of orders, and will be visited accordingly.

The Secretary of State believes that if the important duty of instructing and training the Soldier Assistants of Regimental and Garrison Schools is properly attended to, and if the studies of Regimental and Garrison Schoolmasters are duly pursued, with a view to the more efficient performance of their School duties and to the occasional delivery of Lectures to the Troops, those among them who are engaged in teaching Soldiers and their children during five or six hours of the day, and do it properly, will seldom have either time or inclination for private tuition; and he requests that Commanding Officers and Assistant and Local Inspectors will exercise the greatest discretion in recommending the applications of Schoolmasters for permission to engage in it. In no case will this be granted for a longer period than six months upon one application. If at the expiration of that period a renewal of the indulgence is desired, a fresh application must be made.

For the future it is to be stated in the column of remarks on the first page of the Monthly School Report, whether or not the Schoolmaster teaches private pupils, and, in those cases in which he does, the date at which permission to do so was granted, and the number of hours during which he is engaged with them daily are also to be stated.

The hours during which the School is open for the instruction both of adults and of children is likewise to be shown in future Monthly School Reports.

CIRCULAR, No. 564.

War Office, 7th March, 1860.

SIR,

WITH reference to Article 9 of the Royal Warrant of 28th October, 1858, in which it is provided that a Deputy Commissary General of "five years' standing" shall bear the relative rank of Colonel in the Army, I am directed by Mr. Secretary Herbert to acquaint you that this passage is to be considered as applying only to full pay service, and that the higher relative rank can only be attained by a Deputy Commissary General after the completion of five years' full pay service in that rank, in accordance with the practice prevailing in all other branches of the Army.

I am, Sir, your obedient Servant,

To Officers commanding and Commissariat Officers in charge.

B. HAWES.

General No. 2,
1,963.

CIRCULAR, No. 565.

War Office, 10th March, 1860.

MR. SECRETARY HERBERT desires that the attention of Officers commanding the Troops and Commanding Engineers at Foreign Stations should be called to the present system of framing the Engineer Estimates.

At present the Commanding Engineer calls upon the different Heads of Departments to state their requirements, and compiles the estimates from these requisitions and from his own views of what is necessary for the works and buildings under his own immediate supervision, and at the last stage submits them to the Officer commanding for his remarks.

The estimate for works at Foreign Stations generally exceeds the amount that can be allotted to them, and the works or buildings are often beyond the power of the Royal Engineer Department to execute within the year, even if the money required were granted. The consequence is that the requisitions have to be reduced, and much of the labour bestowed upon its plans and estimates thrown away.

It is therefore requested that the estimates submitted shall never, in the aggregate of the three votes into which they are divided, materially exceed the sum which, on the average of the previous three years, may have been allotted to the Station; and if that sum appears from experience to be too small to meet the pressing exigencies of the Service, the Officer commanding will bring the subject forward separately some time previous to the preparation of the estimates, giving full explanation of the inconvenience complained of, so that some additional provision may be made in the estimates for the purpose.

With this view the Commanding Royal Engineer, as soon as he has collected the various requisitions and is able to form an approximate estimate of the cost of the proposed measures, will form a list of the whole, which he will submit personally to the Officer commanding, and under his directions reduce it to the amount which, in his opinion, is absolutely necessary for the public service, and can be carried out within the financial year.

This reduction can be effected by erasing the unnecessary or least necessary services, by devising the most economical mode of meeting the requirements of the Service, and by economy of construction, which may often allow of a large increase to the convenience and comfort of the Troops without an increase in the aggregate cost.

The Secretary of State will still, of course, exercise his discretion as to disallowing or postponing any of the services brought forward, and no postponed service should be brought forward again without its being shown in the report that inconvenience has resulted from the postponement.

man, be re-numbered with the number of the article and issued to the individual. This should be done by placing the new number under the old, and by drawing a line across the latter to annul, but not to efface it.

7. Volunteers, who may be enrolled for a second term of five years' service, will be provided with a complete new kit, or the value thereof, should the kit in possession, or any portion thereof, be serviceable.

8. Great coats for the Permanent Staff will be required to last five years, and for Enrolled Volunteers ten years.

9. The three suits of Clothing, specified in paragraph 2, are intended to last five years; and, as it is of great importance that the men should always be in possession of one dress and one fatigue suit, the Officer Commanding will apply for the second suit whenever he may consider the same necessary, it being clearly understood that the articles issued are not to exceed the three suits allowed for five trainings.

10. Requisitions for the Clothing, accompanied by the size rolls, to enable the contractors to make the garments of the proper size (when possible), must be addressed to the Secretary of State for War, seven months before the articles required are likely to be taken into wear, and the requisitions should demand such quantities as may be required for the Volunteers who may be expected to be present at the training.

11. The Clothing will be supplied, made up and forwarded to the Head Quarters of each Regiment, and a sum not exceeding two shillings per suit will be allowed for alterations for the Permanent Staff, and one shilling per suit for the Enrolled Volunteers.

12. These charges are only to be made when alterations are considered necessary, and the expense should be charged in the Disembodied Pay List, the requisite vouchers being annexed.

13. At the expiration of every training the clothing is to be taken into store, and an estimate prepared of the repairs which may be necessary.

14. The articles of necessaries enumerated in Paragraph 3 will be supplied to Volunteers who have been enrolled since the Regiment was disembodied, or since the last training, upon requisitions addressed to the Secretary of State for War; but should there be in store any articles belonging to non-effective men, they are to be issued in the same manner as is pointed out in Paragraph 6.

15. The clothing and necessaries are in no case to become the property of the man until they have been in wear five trainings, with the exception of the shirts, socks and boots.

V.—General No. 740.

My Lord, *War Office, February*, 1860.

Having had under my consideration the expediency of the appointment of an Adjutant, commissioned by Her Majesty, to every Brigade of Artillery and Battalion of Rifle Volunteers, I have the honor to inform you that I shall be prepared to submit for the Queen's approval the names of such Officers as you may recommend for the several Corps serving in your county, subject to the following qualifications and conditions of service:—

1. That the Candidate should have served at least four years either in the Line or in the Army of the late East India Company, or in Her Majesty's Indian Forces or in the Embodied Militia.

2. That his application should be accompanied by testimonials as to conduct from his former Commanding Officer.

3. That the Candidate shall be subject to an examination at the nearest Garrison as to his fitness to hold the office of Adjutant, under such regulations as His Royal Highness the General Commanding in Chief may, with the concurrence of the Secretary of State for War, be pleased to direct, and that he shall also have passed through a course of instruction in musketry at Hythe, or be prepared to do so when called upon.

4. The rank of an Adjutant is properly that of a Subaltern; but if appointed out of Her Majesty's Regular Forces or Indian Army or the Militia, he may retain the rank which he held in either of these Services; but no Adjutant shall be entitled by virtue of his superior rank to take the command of any Company of Volunteers, an Officer of the Company being present, except for the purpose of instruction drill.

5. Every Officer appointed an Adjutant of Volunteers will be required, before receiving his Commission, to transmit to the Secretary of State for War the following declaration:—

"I do hereby declare, upon my honour as an Officer and a gentleman, that, in order to obtain the appointment of an Adjutant in the —— Volunteers, I have not given, paid, received or promised, and that I do not believe that any one for me has given, paid, received or promised, directly or indirectly, any recompense, reward or gratuity to any person or persons whatever.

(Signed) A. B."

"Witness, C. D.

6. The pay of an Adjutant of Volunteers shall be 8*s.* a day and 2*s.* to cover the forage for a horse, or for travelling expenses, provided the Commanding Officer has exempted him for the time being from the liability to keep a horse; any other incidental expenses must be borne by the Corps.

7. As the public services of an Adjutant are to be made fully available at all times, it is necessary that it should be perfectly understood beforehand by Candidates that the Secretary of State will not allow them, if appointed, to follow any other profession or hold any other appointment public or private.

I have the honor to be, my Lord,
Your Lordship's obedient Servant,

Her Majesty's Lord Lieutenant for ——. SIDNEY HERBERT.

My Lord, *War Office, Pall Mall, March*, 1860.

Having had under consideration the expediency of forming the various scattered bodies constituting Volunteer Rifle Corps into Battalions, in order to facilitate the administration of the Volunteer Force generally, as well as to increase its efficiency, I have the honor to inform your Lordship that, with a view to carry out this organization, it is proposed to adopt the following principles:—

1st. That a Battalion of Volunteers may be formed either as a consolidated body, composed of various Companies in densely populated districts, acting together as one Corps, in the meaning of the Act of Parliament, 44th Geo. III. cap. 54; or,

2nd. It may be a consolidated body for drill and administrative purposes only, being composed of various Companies forming in themselves distinct and (financially considered) independent Corps, in the meaning of the Act; or,

3rd. A Battalion may be formed for administrative purposes only, from the various Corps scattered over a rural or thinly populated district.

It appears to me, therefore, that, in order to meet these several forms of Battalion organization, it is desirable to lay down the following rules:—

For a consolidated Battalion formed on either of the two first principles—

1 Major ... ... 1 Adjutant ...	will be allowed to 4 Companies of minimum strength.		
1 Lieut. Colonel ... 1 Adjutant ...	ditto	6	ditto.
1 Lieut. Colonel ... 1 Major ... ... 1 Adjutant. —	ditto	8	ditto.
1 Lieut. Colonel ... 2 Majors ... ... 1 Adjutant ...	ditto	12	ditto.

When the Companies exceed 12 the Corps will constitute a Regiment, and be formed into 2 Battalions, each with Field Officers and Adjutants in the above proportion; the whole to be commanded by the senior Lieutenant Colonel.

Although I am prepared to sanction the formation of a Battalion of 4 Companies, it is intended to provide only for cases in which no more than that number of Companies can be formed in a town, and where it is not considered advisable to bring in any rural Companies; and it should be understood that no two Battalions of this strength can be formed in one place.

With regard to the third principle of formation, which is applicable to rural districts, where the Companies, &c., are greatly scattered, I have to explain to your Lordship that it is not intended that this formation into Battalions should render the separate Companies liable to be removed from their own neighbourhood, or brought together at any time when not called out for actual service, except with their own consent; or that the independent existence of the several Corps should be in any degree affected; my object is to accomplish a unity of system in correspondence drill, inspection and returns throughout the entire force.

The following Staff will, therefore, be allowed for rural Battalions:—

1 Major ... ... 1 Adjutant... ...	to 4 or 5 Companies of minimum strength.	
1 Lieut. Colonel ... 1 Adjutant... ...	to 6, 7, 8 or 9	ditto.
1 Lieut. Colonel ... 1 Major ... .. 1 Adjutant... ...	to 10, 11 or 12	ditto.

I have further to state to your Lordship—

1st. That in effecting the formation of these Battalions the concentration of Companies should be considered with reference to locality, and not to their numerical standing in the Army List.

2nd. That each Company may continue to have its own rendezvous and drills; but that there should also be a Battalion rendezvous established; and, where the local distribution and convenience of the different Companies will admit of it, certain days set apart for Battalion drills.

3rd. That, although I have not thought it desirable to insist upon a rigid adherence to that uniformity in the clothing and equipment of Corps serving in the same county, which was recommended in Article 6 of the Memorandum of the 13th July, 1859, I trust that in any future renewal of the clothing the propriety of adopting a uniform colour for Companies belonging to the same Battalion will be duly considered.

I beg, therefore, to acquaint your Lordship, that I am desirous to see the different Companies of Volunteers throughout the country united, as far as possible, into Battalions, under the foregoing rules; and I shall be glad to be favoured with your Lordship's views as to the best means of carrying out the proposed organization among the Companies formed in the county under your charge.

I have the honor to be, my Lord,
Your Lordship's obedient Servant,

Her Majesty's Lord Lieutenant for the county of ——.

S. HERBERT.

CIRCULAR MEMORANDUM.

General No. 11. RECRUITING DEPARTMENT.

Addressed to Recruiting Districts and the Army at Home.

Horse Guards, S. W., 24th February, 1860.

ATTENTION is called to the instructions contained at page 101 of the Regulations, dated 1859,* issued by the Secretary of State for War for the duties of Medical Officers, &c. pointing out the course to be pursued in all cases of medical rejection of Recruits who have already passed a primary or intermediate inspection.

Paragraph 19, page 318, Queen's Regulations, is consequently cancelled, and in paragraph 18, page 317, the words "direct from Recruiting Subdivisions, when inspected by a Military Medical Officer," are to be erased.

That part of the Circular Memorandum of 23rd December, 1857, which refers to Recruits objected to by the Officer in medical charge of a Regiment, is likewise cancelled.

CIRCULAR MEMORANDUM,

Addressed to the Army at Home and Abroad.

General No. 12. Books—2 (1860).

Horse Guards, S. W., 25th February, 1860.

His Royal Highness the General Commanding in Chief desires that the *number* of the Regiment may be noted on the defaulter and ledger sheets of all men who are sent home as invalids, or who are proceeding from one portion of their Corps to another.

His Royal Highness has received several complaints of the "pocket ledgers" of Invalids being in a very incomplete state,—In some of them there is no statement of the Soldier's service abroad; in others no note is made of promotion, wounds, &c.; and in others there is no entry of medal for distinguished service in the Field. These omissions render the ledgers useless as a reference, and cause great inconvenience and much additional correspondence. A stricter attention on the part of Commanding Officers is directed to the Queen's Regulations on this subject, and His Royal Highness hopes he may not be obliged again to notice such irregularities.

CIRCULAR MEMORANDUM,

Addressed to the Army at Home and Abroad.

General No. 13. Courts Martial—1 (1860).

Horse Guards, S. W., 3rd March, 1860.

His Royal Highness the General Commanding in Chief must insist upon the Officers of the Medical Department being most particular in filling up the certificate attached to the committal paper of Soldiers sent to Military Prisons.

Numerous complaints have been made by the Governors of those establishments that, notwithstanding the Report of the Regimental or Staff Surgeon of offenders being fit to undergo prison discipline, disease has shown itself, either at the time of or shortly after their committal, which could not have escaped observation had common care been used at the inspection.

His Royal Highness will not fail to call to account any Officer of the Medical Department who, after this notice, is reported for a similar neglect of duty.

Colonel Greathead, *C.B.*, h.p. Unattached.

SUBJECT.

Colonel Colquhoun's raised Racers for Traversing Platforms.

With reference to letters dated War Office, 30th August, 1859 (Gen. No. 5—1,099), and 5th December, 1859 (Gen. No. 5—1,393).

REMARKS BY THE COMMITTEE.

The Committee have carried on a series of experiments to test the efficiency of raised racers and hollow soled trucks as substitutes for pivots with traversing platforms.

The Committee in their Report (No. 179), dated 29th August, 1859, recommended the introduction of this system with the new casemate platform, and, from the result of the experiments recently carried out, are now in a position to recommend its general adoption.

The Committee beg leave to forward a Memorandum showing the number of rounds fired from traversing platforms, fitted with hollow soled trucks, with new flange arrangement (as per drawing*), upon raised racers. It will be seen that every position has been tested except with radii of racers due to a pivot rear behind chock, but the racers due to the pivot rear before chock having been so thoroughly tested, there can be no doubt with reference to the before-mentioned position.

The Committee beg leave to make the following recommendations, viz.:—

1st. That raised racers and hollow soled trucks with new flange arrangements be substituted throughout the Service for the present pivots with traversing platforms in all positions.

2nd. That the following radii of racers be adopted in the Service, to be distinguished alphabetically:—

1. Casemate platform or dwarf platform. Imaginary pivot about the muzzle of the gun.	Front, 5′ 3″ Rear, 16′ 6″	A
2. Dwarf platform. Radii of racers same as with the ordinary front pivot at present in use.	Front, 1′ 10″ Rear, 12′ 10″	B
3. Dwarf platform. Radii of racers the same as with the centre pivot at present.	Front and Rear	6′ 1″	C
4. Dwarf platform. Radii of racers the same as with the present intermediate pivot.	Front, 9′ 0″ Rear, 3′ 4½″	D
5. Dwarf platform. Radii of racers the same as with the pivot rear before chock.	Front, 10′ 8½″ Rear, 2′ 2″	E
6. Dwarf platform. Radii of racers as with pivot rear behind chock.	Front, 12′ 10″ Rear, 2′ 2″	F

* To be had on application.

CIRCULAR, No. 14—*continued.*

3rd. The Committee recommend that spare trucks be supplied in the proportion of ten per cent.

The trucks are all of the same construction (except the fore trucks for the casemate platform, which are of special construction), and can be easily altered to suit any radius. Care should be taken that they are of one uniform pattern.

The racers are 1½ inches in thickness, and let into the stone three quarters of an inch, leaving a clear inch above.

The Committee suggest that the system be called "Colquhoun's System of raised Racers and hollow soled Trucks," as it was the proposition of the late Colonel Colquhoun, and the success of the system is due to his exertions, ably seconded (after his decease) by the present Superintendent, Royal Carriage Department.

CIRCULAR, No. 15—*continued.*

Batteries of Artillery; and Officers of the Corps are each to provide themselves with a copy, the publishing price of which is *2s. 4d.*

His Royal Highness directs that the instructions contained in the "Manual of Artillery Exercises" be strictly attended to throughout the Service.

In order that a uniform system may be followed in the Royal Artillery in the instruction of Recruits and in the drills and exercises of Batteries, His Royal Highness the General Commanding in Chief is pleased to direct that the Commanding Officers of Brigades shall be governed, as far as the means at each Station will allow, by the accompanying tables A. and B.*

For the record of the drills and exercises of Recruits, the Instructors are to be required to keep two books, as per forms C. and D. annexed,* and Commanding Officers of Brigades of Artillery will furnish to this Office on 1st January in each year, for the information of His Royal Highness the General Commanding in Chief, a return of drills, as per form E.* herewith, accompanying it with a report on the general state of instruction and efficiency of the several Batteries, heretofore furnished under par. 3 of the Regimental Circular of 24th March, 1848.

The books for Drill Instructors and forms of annual return of drills above mentioned may be had on requisition in the usual manner, and the books of the Drill Instructors, when filled up, are to be lodged in the Brigade Offices for reference.

By Command of HIS ROYAL HIGHNESS
THE DUKE OF CAMBRIDGE.

G. A. WETHERALL,
Adjutant General.

* May be had upon application.

(Copy.) GENERAL REGIMENTAL ORDER, 397.

ROYAL ARTILLERY.

Horse Guards, S.W., 26th May, 1859.

THE General Commanding in Chief directs that the following rules be observed in carrying out the Annual Practice of Batteries of Artillery:—

1. Previous to firing the men are to be drilled at the guns they are about to use, and no man is to be allowed to join the practice squad until reported perfect in such drill.

2. The ammunition required is to be made up by the squad about to practise.

3. The Battery allowance of ammunition is to be divided so as to allow of at least fifteen days' practice in each year at intervals extending over the whole of the drill season.

4. When practicable the range and deflection are to be measured by the range party after each round. When floating targets are used, the range party is to be placed so as to observe the range; the deflection will then be recorded at the Battery. If possible, a communication by means of signals should be kept up between the range party and the Battery.

5. Each man laying a gun is to estimate the range and deflection of the shot and point of explosion of the shell, and this estimate is to be inserted opposite his name in the Battery and Practice Reports. The Battery and Range Reports are to be compared as often as practicable, and the errors of range, deflection, &c., as judged at the Battery, pointed out to the squad. By closely adhering to the above rules, it is believed that great proficiency may be attained in judging the effect of fire and estimating distances.

6. Should any shells fail to explode, they are, when practicable, to be recovered, carefully examined and the apparent cause of failure noted in the column of remarks in the Practice Reports.

7. The following new forms of Reports, to supersede the present War Office Form O. 131, have been prepared, viz.:—

Practice Reports—No. 1 for shot, No. 2 for shells, No. 3 for mortar shells.
Battery „ —No. 1 for ditto, No. 2 for ditto, No. 3 for ditto.
Range „ —No. 1 for ditto, No. 2 for ditto, No. 3 for ditto.

CIRCULAR, No. 15—*continued.*

8. These new forms, nine in number, are obtainable on requisitions to the War Office, which are to include the forms applicable for mortar practice for those Stations only at which such practice can be carried out under Circular of 2nd July, 1858.

9. The Battery and Range Reports will be bound up in paper covers of twenty-five leaves each.

10. The *Practice* Reports above referred to are to be compiled from the Battery and Range Reports, and rendered to this Office monthly in future (instead of annually, as at present); and the Reports of the month in which the practice for the year is concluded are to be accompanied by a separate Report from the Commanding Officer upon the general state of efficiency and instruction of each Battery.

11. The Battery and Range Reports are invariably to be filled up during the practice under the immediate supervision of an Officer.

By Command of HIS ROYAL HIGHNESS
THE DUKE OF CAMBRIDGE.

(Signed) CHAS. BINGHAM,
Deputy Adjutant General.

General No. 16. CIRCULAR,

Addressed to the Army at Home and Abroad.

Horse Guards, S. W., 14th March, 1860.

HIS Royal Highness the General Commanding in Chief, with the concurrence of the Secretary of State for War, having approved of the following rules and regulations relative to small arm ammunition for the Army, they are promulgated for the information and guidance of all Officers:—

The Officer commanding the Royal Artillery with an Army, whether in the Field or occupying any Garrison, Fortress or District at home or abroad, is to be considered and held entirely responsible to the General or other superior Officer in command for the preservation and transport of sufficient reserves of small arm ammunition for the Troops.

For an Army in the Field the 1st and 2nd reserves are to be with the Royal Artillery, and the 3rd reserve and great depôt in the charge of Officers of the Military Store Department.

The 1st reserve is to be conveyed in Artillery small arm ammunition waggons attached to the Field Batteries with each Division, and each of these waggons will be provided with cradles and ladders to admit of the leading horses being made use of in transporting ammunition to such positions as it may be found impracticable to reach with the waggons.

The 2nd reserve is also to be conveyed in Artillery small arm ammunition waggons by the details of the Royal Artillery which have the reserve of gun ammunition in charge.

These reserves are to be under the immediate orders of the Officer commanding the Artillery of each Division, who will be responsible to the General Officer thereof that the waggons containing the ammunition of the 1st reserve are from time to time completed, as far as circumstances will permit, from the 2nd reserve; and that in like manner the 2nd reserve is completed from the 3rd reserve in the keeping of the Military Store Officers.

Under ordinary circumstances the supply of ammunition in the Field is to be made on requisitions of Commanding Officers of Corps, which are to be sent to the Adjutant General of the Division, and, should the General commanding approve, the Commanding Officer of Artillery with the Division will be authorized to make the issue. When, however, the Army or a Division is actually engaged, the Commanding Officer of Artillery may issue ammunition on the requisition of any Commanding Officer applying to him.

The 2nd reserve should always be up with the Army, but kept as far as practicable from under fire.

The 3rd reserve should not be more than an ordinary two days' march in the rear of the Army.

If the base of operations should exceed an ordinary two days' march, additional reserves will be required; but this is a matter that must rest with the General Officer

commanding, who would direct the Commanding Officer of Artillery to make the necessary arrangements with the chief Officer of the Military Store Department for ensuring a proper and regular supply of ammunition.

In Fortresses, Garrisons, &c. General Officers are to hold the Commanding Officers of Artillery responsible for there being a proper reserve of small arm ammunition in charge of the Military Stores Officers available at all times for issue.

Small arm ammunition waggons will be attached to the Field Batteries of Artillery at the Camps of Instruction at home, and the General Commanding in Chief desires that the General Officers will accustom the Troops to obtain small arm ammunition *for exercise* when in the Field in the manner that would be followed in actual warfare, in the case of the supply of *ball cartridge* with the Infantry being exhausted.

By Command of HIS ROYAL HIGHNESS
THE DUKE OF CAMBRIDGE.

G. A. WETHERALL,
Adjutant General.

GENERAL ORDER. No. 745.

Staff College—6 (1860).

Horse Guards, S. W., 25th February, 1860.

THE following Regulations regarding the examination of Officers who may be Candidates for admission to the Staff College in February, 1861, are published for general information:—

There will be vacancies for fifteen Officers, two of whom may belong to the Corps of Royal Artillery and Royal Engineers.

HOME STATIONS.

Officers serving in the United Kingdom, who are desirous of entering the Staff College, will be examined in London on the 16th July next and following days.

Commanding Officers of Royal Artillery, Royal Engineers and of all Regiments and Depôts of the Cavalry, Guards and Line on the Home Station will forward to the Adjutant General, through the usual channel, for the consideration of the General Commanding in Chief, the applications of such Officers as wish to compete for admission, together with the necessary certificates.

These applications should be sent in not later than the 15th June, after which date the Officers approved of by His Royal Highness will be instructed to place themselves in communication with the Council of Military Education, with the view to their receiving the Rules for the examination.

FOREIGN STATIONS.

At Foreign Stations the following Regulations will be strictly adhered to:—

The Examination will be held on the 16th July and following days, or as soon after that date as the Examination Papers shall be received from the Council of Military Education.

A Board of Officers will be appointed by the General Officer in command, and will consist of three Officers, one of whom to be, when practicable, a Staff Officer having the rank of Field Officer, and the other two, if possible, not under the rank of Captain. One of these Officers will belong to one of the Scientific Corps, where any such Officer can be obtained.

The Examinations will be conducted by means of the same printed questions as are set for the examination of Candidates in London, and they are to be answered in the presence of the Board.

The Board will give to each Candidate a number, which he will affix to each of his Examination Papers instead of his name. He will retain the same number throughout the Examination.

The Board will give to each Candidate a paper of the printed Examination questions on each subject at the time specified for the Examination in that subject.

The Candidates will write their answers to the questions in the presence of the Board, and their papers, together with the printed Examination questions, will be

GENERAL ORDER, No. 745—*continued.*

collected at the hour appointed, and made up into a packet, which will be sealed before being taken from the Examination Room.

The Board will, immediately on the conclusion of the Examination, forward the papers of the Candidates to the General Officer commanding, for transmission to the Council of Military Education, accompanied by a certificate that the Candidates obtained no assistance from books or help of any kind in their Examination. The Board will at the same time forward the names of the Candidates, corresponding with their index numbers in the Examination, in a separate envelope, for transmission to the Council of Military Education.

The following will be the order of the Examination:—

1st Day.

Military Drawing	3 hours.
" "	3 "

2nd Day.

Fortification	3 hours.
"	3 "

3rd Day.

Mathematics—Obligatory portion, 1st Paper	3 hours.
" " " 2nd Paper }	
" and Voluntary portion, 1st Paper }	3 "

4th Day.

Mathematics—Voluntary portion, 2nd Paper	3 hours.
Military History—1st Paper	3 "

5th Day.

Military History—2nd Paper	3 hours.
" " 3rd Paper	3 "

6th Day.

French	3 hours.
Chemistry	3 "

7th Day.

German	3 hours.
Geology	3 "

There will be in all cases an interval of not less than one hour between the two periods of Examination on each day.

The Papers will be collected at the appointed hours by a Member of the Board. Any Candidate, however, who may have finished his Examination Paper on any subject before the hour named, may deliver it into the hands of a Member of the Board.

Candidates will bring their writing and drawing materials, instruments, &c., and also the tables of logarithms they are in the habit of using. No other books or notes of any description will be allowed to be used.

It is scarcely necessary to observe that no communication whatever will be allowed between the Candidates at the Examination.

Officers commanding Regiments abroad are to transmit to the General Officer in command a Return of the Officers desirous of competing, together with a medical certificate of good health and fitness for the active duties of the Staff. Such Officers will then be ordered to join at Head Quarters for examination, or at any other places which may be selected for the convenience of those at the more distant Stations.

With reference to paragraph IV. of the revised Regulations for the Staff College, published with the General Order, No. 743, of the 23rd ultimo, which directs "that if the Commanding Officer of the Regiment or the General Officer commanding cannot recommend the application of any Candidate, the grounds of objection are to be distinctly stated," it is to be observed that, as there will not be time at distant Foreign Stations to refer to the Adjutant General on the subject, such Officer should in all cases be permitted to undergo his Examination, on the understanding, however, that the

GENERAL ORDER, No. 745—*continued.*

objections urged against his application will still be submitted for the decision of His Royal Highness the General Commanding in Chief.

General Officers commanding at Foreign Stations will place no restrictions upon Officers competing further than the exigencies of the Service may absolutely require. It will be understood that the rule by which only one Officer can be spared from a Battalion at a time for the purpose of studying at the Staff College, does not apply to Candidates from Battalions which have Officers now at the College, but whose course of study will terminate in December next.

General Officers commanding at Foreign Stations will select the hours for the Examination which are best suited to the climate and circumstances of the country, taking care, however, to conform strictly to the number and distribution of the hours, as detailed in the foregoing regulations.

On the completion of the Examinations at their Head Quarters, General Officers commanding should transmit the Candidates' Papers immediately to the Vice President of the Council of Military Education, 1, Whitehall Yard, without waiting for those of Out-stations; and in like manner they should forward without delay the Papers from each Out-station as soon as received. In the event of there being no Candidates, General Officers commanding will notify the fact to the Vice President of the Council without delay.

Officers serving abroad, who may be successful Candidates, will be allowed the regulated passage-money home on joining the Staff College.

The names and examination numbers of the Candidates who are successful in the competition, as well as of those who prove themselves qualified, and the examination numbers alone of Candidates who fail, will be published immediately after the Reports of the Examiners have been received by the Council of Military Education, with the total number of Marks gained by each Candidate, and his place on the list.

The Queen has been pleased to direct that the following Regulations respecting Foreign Orders and Medals shall be substituted for those now in force:

Regulations respecting Foreign Orders.

1. No Subject of Her Majesty shall accept a Foreign Order from the Sovereign of any foreign country, or wear the Insignia thereof, without having previously obtained Her Majesty's permission to that effect, signified by a Warrant under Her Royal Sign Manual.

2. Such permission shall not be granted to any Subject of Her Majesty, unless the Foreign Order shall have been conferred in consequence of active and distinguished Service before the Enemy, either at Sea or in the Field; or unless he shall have been actually and entirely employed, beyond Her Majesty's Dominions, in the Service of the Foreign Sovereign by whom the Order is conferred.

3. The intention of a Foreign Sovereign to confer upon a British Subject the Insignia of an Order, must be notified to Her Majesty's Principal Secretary of State for Foreign Affairs, either through the British Minister accredited at the Court of such Foreign Sovereign, or through His Minister accredited at the Court of Her Majesty.

4. If the service for which it is proposed to confer the Order has been performed during War, the Notification required by the preceding Clause must be made not later than two years after the exchange of the Ratifications of a Treaty of Peace.
If the service has been performed in time of Peace, the Notification must be made within two years after the date of such service.

5. After such Notification shall have been received, Her Majesty's Principal Secretary of State for Foreign Affairs shall, if the case comes within the conditions prescribed by the present Regulations, and arises from naval or military Services before the Enemy, refer it to Her Majesty's Principal Secretary of State for the War Department, previously to taking Her Majesty's pleasure thereupon, in order to ascertain whether there be any objection to Her Majesty's permission being granted.
A similar reference shall also be made to the Commander-in-Chief, if the application relates to an Officer in the Army, or to the Lords of the Admiralty, if it relates to an Officer in the Navy.

6. When Her Majesty's Principal Secretary of State for Foreign Affairs shall have taken the Queen's pleasure on any such application, and shall have obtained Her Majesty's permission for the person in whose favour it has been made to accept the Foreign Order, and wear the Insignia thereof, he shall signify the same to Her Majesty's Principal Secretary of State for the Home Department, in order that he may cause the Warrant required by Clause 1 to be prepared for the Royal Sign Manual.
When such Warrant shall have been signed by the Queen, a Notification thereof shall be inserted in the Gazette, stating the service for which the Foreign Order has been conferred.

7. The Warrant signifying Her Majesty's permission may, at the request and at the expense of the person who has obtained it, be registered in the College of Arms.

8. Every such Warrant as aforesaid shall contain a Clause providing that Her Majesty's licence and permission does not authorize the assumption of any style, appellation, rank, precedence or privilege appertaining to a Knight Bachelor of Her Majesty's Realms.

9. When a British Subject has received the Royal permission to accept a Foreign Order, he will at any future time be allowed to accept the Decoration of a higher Class of the same Order, to which he may have become eligible by increase of rank in the Foreign Service, or in the Service of his own country; or any other distinctive mark of honour strictly consequent upon the acceptance of the original Order, and common to every person upon whom such Order is conferred.

10. The preceding Clause shall not be taken to apply to Decorations of the Guelphic Order which were bestowed on British Subjects by Her Majesty's predecessors, King George IV. and King William IV., on whose heads the Crowns of Great Britain and of Hanover were united.
Decorations so bestowed cannot properly be considered as rewards granted by a Foreign Sovereign for services rendered according to the purport of Clause 2 of these Regulations. They must be rather considered as personal favours bestowed on British Subjects by British Sovereigns, and as having no reference to services rendered to the Foreign Crown of Hanover.

Regulations respecting Foreign Medals.

1. Application for permission to accept and wear Medals which, not being the decoration of any Foreign Order, are conferred by a Foreign Sovereign on British Subjects in the Army or in the Navy for military or for naval services, should be addressed, as the case may be, to the Commander-in-Chief, the Master General of the Ordnance, or the Lords of the Admiralty, who, if they see fit, may submit the same to Her Majesty's Principal Secretary of State for Foreign Affairs for Her Majesty's sanction; upon obtaining which, they may grant such permission without any other formality.

2. Permission to wear a Foreign Medal cannot be granted to a British Subject, unless such Medal is bestowed for military or naval services performed by the command or with the sanction of Her Majesty. But no permission is necessary for accepting a Foreign Medal, if such Medal is not to be worn.

WARRANTS, CIRCULARS, &c.

6,900, 307.

CIRCULAR, No. 556.

War Office, 10th April, 1860.

It having been decided that all claims heretofore certified for payment by Barrack Masters on account of the Hospital Services specified in the margin [illegible]* shall be defrayed by Purveyors so soon as Hospital Buildings and Stores are transferred to their charge under the provisions of Circular 464, and of the Medical Regulations of the 7th October, 1859, Mr. Secretary Herbert desires that, on the completion of such transfers, Purveyors shall pay all these claims from the date of transfer, after having duly examined the charges and ascertained that they are in accordance with existing contracts.

In order, however, to prevent the possibility of payment being made for the same service both by the Barrack Master and Purveyor, more especially in cases when the transfer occurs in the middle of a quarterly period, the Purveyor will attach to the first charge in his accounts, under each head, a certificate from the Barrack Master to the effect that no claim has been or will be certified by him for payment for the period and service in question.

Purveyors will enter in a separate column in their Cash Book all payments made by them on account of each of the services specified, so that at the end of the quarter the total amount to be charged under each head may be shown and carried to the general state of their Cash Account.

Purveyors will report the date on which any transfers may have already taken place in the Districts under their charge, and report from time to time any additional transfers as they occur.

To Commanding Royal Engineers,
Barrack Masters and Purveyors.

7,645, 112. CIRCULAR, No. 573. (BARRACKS.)

War Office, S. W., 27th March, 1860.

A COPY of the regulations for the use and management of gas in Barracks, which have been approved by the Secretary of State for War, is transmitted for the information and guidance of the Officers concerned.

Detailed instructions will be sent to each Barrack Master respecting the persons to be employed to perform the services mentioned in paragraphs 4 and 14 of the regulations, and to Commanding Royal Engineers respecting the alterations required to the gas fitments.

Commanding Royal Engineers will communicate to this Office and to the respective Barrack Masters the date of the completion of the alterations to the gas fitments, and the enclosed regulations will take effect from that date.

Officers commanding, Commanding Royal Engineers, Barrack Masters. B. HAWES.

7,645, 112. REGULATIONS RESPECTING THE USE OF GAS IN BARRACKS.

War Office, 27th March, 1860.

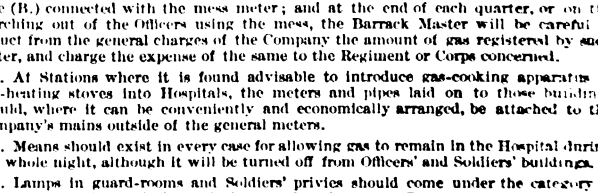
1. THE whole of the gas consumed in a Barrack and the buildings connected therewith should pass through one meter, and means should exist for cutting it off entirely at one spot.

2. Means should exist for cutting off gas from *each* building internally lighted.

When the appropriation of more than one adjacent building is such that the extinction of internal lights would in all be required at the same time, the gas should be cut off from the whole at one spot, if such can be conveniently arranged.

3. A separate meter should be provided for the Canteen, and all the gas consumed therein be made chargeable to the tenant.

4. A meter is to be affixed to the mess establishment, through which all the gas supplied to the different apartments should be made to pass, when required, according to the sketch. Up to 11 o'clock p.m. the gas is to pass through a pipe (A.) connected



Gas to be turned off at 11 p.m.

with the general meter only. But at that hour the gas is to be turned on through a pipe (B.) connected with the mess meter; and at the end of each quarter, or on the marching out of the Officers using the mess, the Barrack Master will be careful to deduct from the general charges of the Company the amount of gas registered by such meter, and charge the expense of the same to the Regiment or Corps concerned.

5. At Stations where it is found advisable to introduce gas-cooking apparatus or gas-heating stoves into Hospitals, the meters and pipes laid on to those buildings should, where it can be conveniently and economically arranged, be attached to the Company's mains outside of the general meters.

6. Means should exist in every case for allowing gas to remain in the Hospital during the whole night, although it will be turned off from Officers' and Soldiers' buildings.

7. Lamps in guard-rooms and Soldiers' privies should come under the category of exterior lamps, from all of which the gas should be cut off at each lamp and at the general Barrack stopcock.

8. All meters are to be placed in secure places and under lock and key. The general meter key should be different from that of the other meters; and all the keys, including the keys of the stopcocks, are to be in the custody of the Barrack Master, who should examine the meters from time to time between the periods of taking account by the

CIRCULAR, No. 573—*continued.*

Gas Company's agents. The taking account must always be done in his presence, so as to enable him to certify to the quantity consumed. The Barrack Master will thus be able to detect any unusual quantity of gas used, and ascertain, if possible, whether it is the result of escape or of neglect to the following rules regarding the period of turning on and off the gas.

9. The gas is to be turned on daily to the Barracks generally (when occupied by Troops) at the general stopcock half an hour before sunset, and at each building not earlier than sunset, half an hour after which the lamps should be lighted.

10. Gas is to be turned off from all Soldiers' buildings half an hour after tatoo roll-call, and from all Officers' buildings, except the mess, at 11 o'clock p.m.

11. In winter mornings the gas may, upon the requisition of the Commanding Officer, be turned on to the men's rooms and troop stables, and be used by the Troops up to 7:30 a.m., at which hour it is again to be turned off at the general stopcock.

12. The regulation of the use of gas during the night in the Hospital shall be at the discretion of the principal Medical Officer at the Station, who will give the necessary instructions to Medical Officers in charge of the Hospitals, taking care that no unnecessary use of gas is permitted.

13. As soon as the gas has been turned on the interior lamps or burners are to be lighted by the Troops, upon whom shall devolve also the duty of extinguishing at each separate burner, when necessary.

14. The cleansing, lighting and extinguishing of exterior lamps, as well as the turning off and on of the gas, shall be performed under the directions of the Barrack Master, either by a member of the Barrack Department or by a pensioner or civilian labourer. If by the former, it must be clearly understood that the Barrack duties now performed by such individual are to be in no way interfered with, this being considered as extra duty, for which an extra rate of pay will be granted. Rates of pay will be granted to the individuals selected for this duty, varying according to its extent; this pay, however, to be granted only whilst the gas is in actual use in the Barrack.

15. The Barrack Master may purchase an almanack, showing the hours of sunset, by which he will regulate the hour of turning on the gas in the evening. He will make changes of a quarter of an hour at a time, notifying to every Commanding Officer the hour at which the gas will be laid on from one period to another by filling up the annexed form.

16. Exterior lamps are to be lighted and kept burning during the months of March and October from 6 o'clock in the evening until 11 o'clock at night; and during the months of November, December, January and February from 5 in the evening until 11 at night, excepting the lamps in the Soldiers' privies, guard-rooms and at Hospital and Barrack gates, where they are to burn from sunset to sunrise, without reference to moonlight nights.

The lamps are not to be lighted during such periods as the Barracks may remain unoccupied, neither are they to be lighted on the night of the full of the moon, nor on the four preceding and two following nights, making together seven nights on which the lamps are not to be lighted at every full moon.

During the summer months such exterior lamps as are not in use are to be placed in Store.

17. Gas regulators to the extent necessary are to be provided in all Barracks where gas is introduced; they are to be securely placed under lock and key, and will be in the Barrack Master's charge.

General No. 2, 1,964. CIRCULAR, No. 574.

War Office, 27th March, 1860.

MR. SECRETARY HERBERT desires that the particular attention of all Engineer Officers should be called to the necessity of exercising the strictest economy of the public funds in the design of works and buildings for military purposes.

Cases have recently been brought before him where the provisions of the estimates submitted to the War Office have been so excessive, that they must have been prepared by inexperienced subordinates, and forwarded by Commanding Engineers without consideration or study.

All such designs are, it is true, submitted to an examination in the War Office, and a reduction is thereby often effected; but the effects of such revision are often arbitrary and unsatisfactory, unlike savings effected by Officers, who, after thoroughly mastering the requirements they have to fulfil, meet them in the most skilful and economical manner.

There is reason to fear that there are Engineer Officers who consider the duty of designing beneath their notice, and who are too ready to place in the hands of subordinates duties which Engineer Officers in most other Services in Europe perform assisted, and which really are among the highest functions of the Architect or Engineer, be he military or civil.

It being considered that military works ought to be designed by military men, in order that military requirements may be fully attained, it is most illogical to place this duty in the hands of the Civil Branch of the Department when there are Military Officers available.

Mr. Herbert does not allude to the works of Fortification, which, on account of their magnitude, it has been necessary to make special arrangements to carry out, but to the fulfilment of the numerous current services for Barrack, Store and general purposes, amounting in the aggregate to a very large annual sum, which are executed from the designs made at the Head Quarters of each Engineer District.

Mr. Herbert wishes that the designs for *new* works should, whenever it is at all practicable, be prepared by an Engineer Officer, whose name shall be attached to the design. When it is necessary to employ a civil member of the Department, he also should sign the plan and have the full share of responsibility which attaches to the designer.

The person employed should consider carefully what is the object to be attained and the means of attaining it; he should compute the number of persons or quantity of traffic or stores for which he has to provide accommodation, and subordinate not only the dimensions of the different parts, but the degree of solidity, permanence and finish given to them to the object in view. He should carefully consider the origin of the proposal, and whether he cannot avoid a new construction by the repair, restoration or appropriation of some existing building. The Secretary of State will always be glad to consider such proposals if made with care and deliberation.

A few instances may be quoted wherein from *no* want of professional skill, but rather from want of preliminary thought and consideration, considerable unnecessary expense has been incurred or proposed.

In a recent instance a bridge was recommended across the moat of an obsolete Fort, when a causeway of earth would have answered every purpose.

A drawbridge of a size and strength equal to the traffic of the entrance of a Fortress has been constructed to an insignificant Coast Battery.

The bridge may have been faultless as a bridge, but the first thing to determine was whether it was indispensable or whether it could not be replaced by some cheaper but equally useful expedient.

A jetty was required to ship ammunition from a Magazine, the conditions being that 3,220 barrels and cases should be put on board in six hours. Railways were in use at the Magazine in question, and the trucks running upon them carried each twenty cases. There were therefore 161 truck loads to be conveyed to the head of the jetty and to return empty in six hours, or one truck load every two minutes. To accomplish this it was proposed to construct a jetty to carry six double lines of rails, which would have given an average traffic of one truck every twelve minutes on each line. One double line of rail was found ample, and the work has been executed for one-seventh part of the original estimate.

But when the proper plan and dimensions are arrived at, care and judgment are required in selecting the most suitable material and applying it in the mode best calculated to attain solidity at as little cost as possible.

It is often bad economy to build in too temporary a manner, but the converse is also often true. It may be cheaper to build every ten years in wood than to sink a large

CIRCULAR, No. 574—*continued.*

sum in stone. The best materials should be provided where they are required, but it is quite proper to use inferior materials when they will answer the purpose as well.

Mr. Herbert does not wish absolutely to proscribe ornament, but it should be used sparingly and with judgment, and never cause any sensible increase to the cost of the buildings. Heavy cut stone dressings, cornices and plinths seldom make an addition to the appearance of a building at all commensurate with their cost.

High finish or expensive fittings to the interior of any part of military buildings are still more to be avoided, and are out of place in a profession where simple and frugal habits should be encouraged among all ranks.

Engineer Officers should endeavour to make the case their own, and do for the public service what they would do for themselves, had they to find the funds.

Large as the public revenue of Her Majesty is, it is the bounden duty of every citizen, and above all of every Officer in Her Majesty's pay, to make that revenue go as far as it can.

Mr. Secretary Herbert feels confident that many Officers of Engineers do give him the assistance he requires, and all can, if they will only make the attempt.

Mr. Herbert sometimes hears as an excuse for costly work that it is "necessary to do credit to the Service;" but he is not prepared to give credit to any Officer for an injudicious application of the means placed at his disposal from the public purse.

War Office, 30th March, 1860.

WITH reference to Art. 3, page 68, of the Medical Regulations for the Army, in which it is laid down that all repairs to Hospitals shall be executed under the directions of the Purveyor,

Mr. Secretary Herbert has determined that, until further orders, the operation of this Regulation shall be suspended, and that the following shall be substituted for it:—

Repairs of an ordinary character to Hospitals, from the immediate non-execution of which no inconvenience to the sick is likely to arise, will be executed by the Royal Engineer Department, in accordance with the regulations hitherto existing.

In the case, however, of the principal Medical Officer considering that the necessity for any repair of an incidental nature is urgent, and that no delay ought to be permitted to occur in its execution, the Purveyor is empowered to communicate at once with the Engineer triennial Contractor, or with his agent, and to order the necessary work to be performed.

In the event of unreasonable delay occurring in the carrying out of this order, the Purveyor is further empowered to order the execution of the work through any other source which may be at hand.

The Purveyor, when thus ordering the execution of a work by the Engineer Contractor, will simultaneously report his having done so to the Commanding Royal Engineer of the district, with the grounds of the urgency of the case.

The Commanding Royal Engineer will take the necessary steps for causing the work to be inspected, and it will be measured, paid for and brought to account by the Royal Engineer Department in the usual manner.

The Purveyor will similarly report to the Commanding Royal Engineer, should he find it necessary, on account of delay on the part of the Contractor, to order the work of other tradesmen, in order that the Commanding Royal Engineer may take the necessary steps to charge the contractor with any extra cost which may be involved in so doing.

Commanding Royal Engineers will communicate to the present triennial Contractors the powers hereby granted to Purveyors, and will make the necessary provisions in future terms of contract.

CIRCULAR, No. 575.

War Office, 28*th March*, 1860.

THE Secretary of State for War having decided that for the future the annual pecuniary grants in aid of Royal Artillery Libraries shall be equally distributed to the several Officers in command of Brigades, to be by them apportioned in such manner as may appear to them to be most advantageous to the service, applications for such grants should be addressed to the Commanding Officers of Brigades instead of, as heretofore, to this Department.

The sum of 20*l.* will be allotted for each Brigade, and the Commanding Officer of each should forward on 1st April and 1st October a half-yearly report in duplicate, according to the enclosed form, for each Library to which assistance may be given, addressed to the Secretary to the Council of Military Education, Horse Guards.

The allowances in aid of the Libraries of the Corps of Royal Engineers, at the rate of 2*l.* 10*s.* per Company per annum, may be charged half-yearly, as heretofore, in the pay lists; and half-yearly returns on the enclosed form should be regularly transmitted as above.

CIRCULAR, No. 579.

1. *War Office, 2nd April*, 1860.

MR. SECRETARY HERBERT desires that the attention of Commanding Engineers at all Stations and of Comptrollers of Army Expenditure abroad be called to the necessity of consulting the customs of the country in fixing the terms upon which supplies for Engineer purposes are to be made and Engineer works are to be executed.

2. When once the terms are agreed to by a Contractor they should be enforced with as much strictness as the interests of the public service and fairness to rejected candidates require, and with a view to the public receiving the full return for the price paid (care being taken that no unnecessary objections are made), it being evident that the easier the original terms the less the public, in the long run, will have to pay.

3. The following are a few of the numerous instances in which the terms originally fixed may enhance, and, indeed, in cases which have come under Mr. Herbert's notice have really enhanced the cost of public works without any corresponding advantage.

4. A specification may provide for a description of brick which, however good in itself, is little, if at all, superior to that which is made in the neighbourhood of the proposed work.

5. One description of brick, stone or timber may be insisted upon when a choice of several might be given.

6. The time for the supply of materials may be so short that it is not possible for a dealer to get a consignment from the source of supply, and he is obliged, in fixing his price, to calculate upon having to purchase the material in a limited market.

7. The time for the completion of a work may be so short that the Contractor has to calculate for unusual expenses of all kinds, not only in the supply of materials, but labour.

8. Workmanship and fittings may be insisted upon to which the inhabitants of a country are not accustomed, and which few will undertake, or, if they do, at extravagant prices only.

9. No bond should be required, except when it is absolutely necessary, and the payments should be made as frequent and the reserves as small as possible.

10. No contract should be made except with those who are known to be competent to perform it; but at the same time the most extended competition should be resorted to amongst all that are competent.

11. In consequence of the modifications made by Circulars 411 and 526 in the system of contracts for large works at Home Stations, Mr. Secretary Herbert has reason to believe that the public have obtained better terms, and he trusts that Officers commanding the Troops at Foreign Stations will co-operate with the Comptrollers of Army Expenditure and with Commanding Royal Engineers in adopting these principles.

12. It is most desirable that the Commanding Royal Engineer and Comptroller of Army Expenditure should from time to time consult those persons who generally tender for Engineer works or supplies, including unsuccessful candidates, as to the nature of the terms which are most advantageous to them, and that every facility, compatible with the interests of the Service, should be afforded to the Contractor in carrying out the work.

13. Whenever it is found by actual experience at Foreign Stations that work may be carried on by the hire of workmen and the purchase of materials at a cheaper rate than by contract, the former system may be adopted either in place of periodical or special contracts.

Arms, &c.—2 (1860).

Horse Guards, S. W., 24th March, 1860.

IT having been brought to the notice of His Royal Highness the General Commanding in Chief that, in several instances, Arms supplied by the War Department to Regiments and Depôts have been stamped or punched, instead of *engraved*, by Armourer Serjeants,—and the prices specified at pages 98, 99, of the Queen's Regulations for marking Arms being based upon the cost of engraving, and not stamping,—Officers commanding are hereby enjoined to forbid the latter practice, which is often injurious to the Arms.

The figures on bayonet scabbards should be engraved on the *button*, and not upon the brass mouth-piece, as this latter is more liable to require repair or exchange.

To the usual certificate forwarding the claims for payment to the Armourer Serjeant, required by paragraph 14, page 99, of the Queen's Regulations, should in future be added, that the Arms alluded to have been *engraved*, and not stamped.

CIRCULAR MEMORANDUM, No. 23—*continued.*

dress, in lieu of the cloth stripes on the undress trousers, with the addition of leather booting, the same is hereby promulgated for information and guidance, and General Officers and Officers commanding the Regiments concerned are enjoined to enforce adherence to this regulation from the 1st of May next.

It is to be understood that the leather bootings are to be worn on all mounted duties. This Order does not apply to the Household Cavalry.

By Command. W. F. FORSTER,
Deputy Adjutant General.

CIRCULAR MEMORANDUM,
Addressed to the Army at Home and Abroad.

General No. 24. Discharge—1 (1860).

Horse Guards, S. W., 9th April, 1860.

MUCH inconvenience having been caused by the Service of Invalids and other Soldiers arriving from abroad for discharge having been inserted in their Parchment Certificates in ink, instead of in pencil, thus involving the necessity of an erasure (which is most objectionable), or of having the whole of the discharge documents re-prepared, or of the issue of a fresh certificate differing as to place, dates and signatures from the Proceedings of the Regimental Board, with which it ought to agree in every respect,—the attention of General and other Officers commanding on Foreign Stations and Officers commanding Regiments is specially directed to paragraph 7, page 179 and 180, of the Queen's Regulations and Orders for the Army (1859), in which the long-standing rule and practice of the Service, which have been departed from, are repeated.

By Command. W. F. FORSTER,
Deputy Adjutant General.

CIRCULAR MEMORANDUM,
Addressed to the Army at Home and Abroad.

General No. 25. Clothing, &c.—2 (1860).

Horse Guards, S. W., 10th April, 1860.

COMMANDING Officers are requested to state in Section 5 of the second page of the Monthly Return what requisitions for clothing, saddlery, arms, appointments, necessaries, &c. remain uncomplied with at the date of the Return.

By Command. W. F. FORSTER,
Deputy Adjutant General.

CIRCULAR MEMORANDUM,
Addressed to the Army at Home.

General No. 26. Returns—2 (1860).

Horse Guards, S. W., 11th April, 1860.

HIS Royal Highness the General Commanding in Chief observes in many of the Monthly Returns that *Recruits* are reported as "fit for Garrison duty only," and desires that only those men who, from length of service or from medical causes, are unfit for Foreign Service, be included under that head.

By Command. W. F. FORSTER,
Deputy Adjutant General.

GENERAL ORDER. No. 748.

Horse Guards, S. W., 31st March, 1860.

HER MAJESTY has been pleased to appoint Major General the *Honorable* Sir James Yorke Scarlett, *K.C.B.*, to be Adjutant General to the Forces, *vice* Lieutenant General *Sir* George Augustus Wetherall, *K.C.B.*, whose term of Staff Service has expired.

By Command of HIS ROYAL HIGHNESS THE DUKE OF CAMBRIDGE,
THE GENERAL COMMANDING IN CHIEF.

W. F. FORSTER,
Deputy Adjutant General.

War Office, 27th April, 1860.

Indian Naval Brigade.—Mr. GEORGE BELL CHICKEN.—Date of act of bravery, 27th September, 1858.—For great gallantry on 4th September, 1858, at Suhejnee, near Peroo, in having charged into the middle of a considerable number of the rebels, who were preparing to rally and open fire upon the scattered pursuers. They were surrounded on all sides, but, fighting desperately, Mr. Chicken succeeded in killing five before he was cut down himself. He would have been cut to pieces had not some of the men of the 1st Bengal Police and 3rd Sikh Irregular Cavalry dashed into the crowd to his rescue, and routed it, after killing several of the enemy.

War Office, 28th April, 1860.

(*Vide Gazette, 1st May*, 1860.)

86 Foot (now in 56 Foot), No. 1,882.—Private JAMES PEARSON.—Date of act of bravery, 3rd April, 1858.—For having gallantly attacked a number of armed rebels, on the occasion of the storming of Jhansi, on 3rd April, 1858, one of whom he killed, and bayonetted two others. He was himself wounded in the attack. Also for having brought in, at Calpee, under a heavy fire, Private Michael Burns, who afterwards died of his wounds.

It is to be distinctly understood that CIRCULAR, No. 556, dated 10th April, 1860, and addressed to Commanding Royal Engineers, Barrack Masters and Purveyors, which was published in the *May* "*Army List*," *page* 282, is only to refer to HOME STATIONS.

CIRCULAR, No. 582.

HOME AND FOREIGN.

War Office, 21st April, 1860.

THE attention of the Secretary of State for War having been called to the fact that Arms are sometimes stamped or punched instead of being *engraved*, Military Store Officers are instructed to take especial care that any Arms that may be required to be marked under their directions are *engraved*, and not stamped or punched, which latter practice is most injurious to the Arms.

The figures on Bayonet Scabbards should be *engraved* on the button and not upon the brass mouth piece, as this latter is more liable to require repair or exchange.

War Office, 23rd April, 1860.

SIR,—I AM directed by Mr. Secretary Herbert to call your attention to Par. 87 of Clothing Regulations of 24th August, 1857, respecting the disposal of Knapsacks of non-effective men, and I am to request that in future the following instructions may be strictly adhered to:—

When a Soldier becomes non-effective by death, desertion or any other cause, within two years of his receiving or providing himself with a new Knapsack, that article is to be taken possession of by the Quartermaster. A Board of Officers is to assemble to inspect it, and if found fit for issue to a recruit, the Board will fix the value of it.

The sum declared to be the value of the Knapsack is to be charged to the public, through the Quarterly Clothing Account, and credited to the Captain of the Company to be accounted for with the man's effects.

The Knapsack is to be issued to the first recruit who may join, and the difference between the value of the article so issued and that of a new Knapsack (10*s.* 6*d.*) is to be paid to the recruit as compensation for not being supplied with a new Knapsack; the sum thus paid to the recruit is also to be charged through the Quarterly Clothing Account, vouched by W. O. Form. 857 a, duly completed.

Should the Board of Officers find the Knapsack unfit for issue, it should be sold with the rest of the man's effects.

A Soldier receiving his discharge will have the option of taking his Knapsack with him.

Should the observance of the foregoing rule cause an accumulation of Knapsacks in the Regimental Stores beyond the anticipated requirements of the Service, the Commanding Officer will make an immediate report of the same to this Office, in order that instructions may be given him as to the disposal of the surplus Knapsacks.

These rules are to apply to the Depôts, or to the Head Quarters of Regiments at home, where recruits join. In all other cases the Knapsack is to be sold with the rest of the man's effects.

I have the honor to be, Sir, your obedient Servant,

To Officers commanding Regiments and Depôts. B. HAWES.

Mil. Gen. No. 972. CIRCULAR, No. 585.

War Office, 1st May, 1860.

SIR,—DOUBTS having arisen regarding Circular, No. 570* (51—Mil. Gen. No. 942), regulating the provision of Clothing and Necessaries for the Disembodied Militia, I am directed by Mr. Secretary Herbert to draw your attention to the following supplementary observations, and to request that you will be good enough to receive this communication as an acknowledgment of any letter you may have already addressed to the Secretary of State for War on the subject.

It should be clearly and positively understood, with regard to the small necessaries enumerated in paragraph 3, that men, whether on the Permanent Staff or Enrolled Volunteers, who have been or should have been present at a previous embodiment or

training, for however short a period, will only be provided with boots, shirts and socks by the public, unless they have been re-enlisted for a new period of service subsequent to the commencement of the training in 1859. The men not entitled to the small necessaries at the public expense will, however, only be required to supply themselves with such other necessaries as they have been hitherto in the habit of providing at their own expense. All, however, who have been enrolled since the end, or re-enrolled since the commencement, of the training of 1859, and are now present—or may hereafter be present—for their first training since enrolment or re-enrolment, will be entitled to a full complement of small necessaries as laid down in that paragraph.

The sum of ½*d.* will be admitted as a charge against the public for marking each of these articles, and the same rate for re-marking articles of the same denomination already in possession, in accordance with paragraph 5. This will supersede the 146th Article of the Militia Regulations of the 1st September, 1854. No allowance will be made for washing the articles to be returned into store at the end of training.

The subjoined list of prices will enable you to recover correct amounts from men who may lose the small necessaries provided by the public, and will serve for your guidance in granting compensation in lieu of serviceable articles already in a man's possession on re-enrolment. In such cases it is left to your discretion whether the article already in the man's possession will last in a serviceable condition till the end of the new period of service, as it will not be replaced by the public during that period.

When articles ordered by this office, for which a size-roll has been provided, are delivered at the Regiment by a tradesman, without previously undergoing government inspection, it will be your duty to immediately compare them with the size-roll, and you will be at liberty to reject them if not made in accordance with the sizes sent. Should you, however, deem this course inexpedient, owing to the pressing requirements of the service, it will then remain for you at once to carry out the necessary alterations, and subsequently to forward a special complaint to the Secretary of State for War.

War Office, 1st May, 1860.

1. The following instructions (which are to be observed in lieu of those dated 7th February, 1859) are simply intended to provide for the distinct separation between the Storekeeper's Department and the receipt and inspection of stores received from Contractors; but the Military Store Officer in charge will be required to adhere strictly to the Ordnance Regulations in every other respect.

2. All stores given over by the inspectors are under the charge of the Senior Military Store Officer, who will make such issues as may be directed.

3. The Military Store Officer in charge is answerable for the due care and preservation of all stores during the period they are under his charge.

4. The Military Store Officer in charge will receive a notification of every contract entered into; and, as he is responsible that no delay takes place in the issue of stores, he will, in the event of an order being received to issue stores which are not in store, but under contract, send an extract of the order to the inspectors, who will hasten the delivery from the Contractors or expedite the inspection, as the case may be.

5. All Stores from Contractors will be received by the inspectors, and when inspected will be immediately handed over to the Military Store Officer in charge accompanied by a transit note in duplicate, which will be the authority for the stores to be taken on charge.

6. When the certificate for payment has been signed by the inspector, with regard to quality and conditions of contract, it will be transmitted to the Storekeeper, who will certify that the articles have been taken on charge, and transmit the certificate to the Accountant-General.

7. The Military Store Officer in charge will be careful to transmit the transit notes as vouchers for each entry in his ledger, and to quote the number of each note on the certificate.

8. All stores returned from regiments will be received by the Military Store Officer in charge, who will prepare them for the survey of the inspectors on returned store notes in the usual manner.

9. The Military Store Officer in charge will transmit a monthly return of all certificates sent during the preceding month, stating against each the date when it was received from the inspectors.

10. The Military Store Officer in charge will keep the necessary check of all persons employed under him, and will prepare, examine and certify the cheque books and pay lists agreeably to regulations.

He will also pay the establishments employed under the inspectors and the Superintendent of the clothing factory as well as his own.

11. The store buildings allotted to the Storekeeper will be under his charge, and he will make such arrangements as he may consider necessary to ensure the safety of the buildings and Stores entrusted to his charge.

12. Any requisitions for ordinary repairs should be addressed to the Inspector of Works.

13. Articles for use or stores required for carrying on the general duties of the Department will be kept by the Storekeeper, who will issue to the inspectors and to the Superintendent of the clothing factory such articles as may be required by them.

14. During the hours that the depôt is closed, the keys of all the Departments will be entrusted to the resident foreman of the Storekeeper's Department, who will see that all the Storehouses are open at the proper hour for commencing business.

15. When articles are required to be made in the clothing factory, the Military Store Officer in charge will transmit to the Superintendent an extract of the authority to provide or to issue, and will furnish that Officer with whatever materials he may require.

The garments, when sent in, will be accompanied by a transit note, which will be the Storekeeper's voucher for receiving the articles on charge.

INSTRUCTIONS TO THE INSPECTORS OF CLOTHING.

War Office, 1st May, 1860.

1. THE following instructions are to be observed in lieu of those given on the 7th February, 1859, and are intended to provide for the separation of the receipt and inspection of stores from the Storekeeper's Department, but the Inspectors and all persons employed under their orders will be required to adhere strictly to the Ordnance Regulations.

2. All stores from contractors or purchased under special authority by the Military Store Officer in charge, will be received by the Inspectors, in whose custody they will be during the inspection.

3. The stores will be received on the receiving floors and the Inspectors will see that the receiving clerk in charge of the floor is always present when stores are delivered, and that no delay takes place in passing them for inspection or into the charge of the Senior Military Store Officer.

4. As the Inspectors are responsible for the custody of the stores until delivered over to the charge of the Senior Military Store Officer, in the event of the space allotted being insufficient, they will report the same to the War Office, with such suggestions as they may have to offer.

5. Should the Military Store Officer in charge urgently require stores which may be under inspection, or not delivered by the contractors, the Inspectors will on the receipt of an extract of the order from the Military Store Officer in charge hasten the delivery from contractors or expedite the inspection, as the case may be.

6. The Inspectors are to see that the supplies are properly compared with the patterns and specifications; and as they have the means of checking and superintending the proceedings of Sub-Inspectors and Viewers, they will be held responsible for the quality of the stores which they pass into the Service.

7. Every report of inspection is to be signed by an Inspector and one Sub-Inspector; and the Inspectors will see that the stores are properly described in the inspection report, so as to identify them with those described in the corresponding specification.

8. Upon the completion of the inspection they will insert in the proper columns the quantities accepted and rejected; and against each item of rejection they will clearly and fully state the cause, and notify the same to the Contractor and require him forthwith to remove and replace the rejections.

9. All communications with Contractors regarding the delivery of supplies, the removal of rejections and all other matters connected with the receipt and inspection of supplies, are to be made by the Inspectors, pursuant to the contracts entered into.

10. Sub-Inspectors and Viewers are on no account to be permitted to enter into any communication with Contractors, except in the presence of an Inspector.

11. In the event of any difference of opinion arising between the Inspectors on any subject connected with the receipt and inspection of Stores, each of the dissenting parties will make a report of the same to the War Office, fully detailing his reasons in support of his views.

12. In the event of an Inspector having reason to disapprove of the decision of a Sub-Inspector, he will desire the latter to draw up a statement of his opinion and his reasons for coming to that opinion before he leaves the inspection buildings. The Inspector will forward the Sub-Inspector's letter, together with his own remarks thereon, for the information and decision of the Secretary of State.

13. The Inspectors are required to keep a daily record of inspections; and they will transmit on the 1st of every month a return of all stores inspected, with the dates, showing when they were received from the Contractors, with any explanation for the non-inspection of the articles therein enumerated after the expiration of the thirty days allowed for inspection by the terms of the contract.

14. When stores have been inspected, the Inspectors will give them over to the Military Store Officer in charge accompanied by a transit note in duplicate; and the certificate for payment will be signed by one Inspector and one Sub-Inspector as regards quality and conditions of contract, and transmitted to the Senior Military Store Officer, who will certify that the articles have been taken on charge and forward it to the Accountant-General.

INSTRUCTIONS, No. 587—*continued.*

15. The Inspectors will be required upon a requisition from the Military Store Officer in charge to inspect stores returned from regiments.

16. All persons attached to the receipt and inspection departments are under the exclusive authority of the Inspectors, and all applications for leave, &c., are to be sent through the Inspectors to the War Office.

17. The Inspectors will keep the necessary cheque of all persons employed under them, and will prepare, examine and certify the cheque books and pay lists agreeably to the regulations, but the payments will be made by the Military Store Officer in charge.

18. The store buildings allotted for the receipt and inspection of stores will be under the charge of the Inspectors, who will make such arrangements as they may consider necessary to ensure the safety of the buildings and stores entrusted to their charge.

19. All requisitions for ordinary repairs are to be addressed to the Inspector of Works; and requisitions for articles in use and articles necessary for carrying on the duties connected with the receipt and inspection of stores are to be addressed to the Military Store Officer in charge.

20. During the hours that the depôt is closed, the keys of all the buildings will be entrusted to the resident foreman of the Storekeeper's department: and the Inspectors will direct the principal Viewers to deliver the keys to the resident foreman immediately after the work has ceased.

21. Whenever patterns are to be sent to accompany supplies, the Inspectors are required to select and see that they correspond with the standard patterns, they will then affix their own seal to each article, and sign the label or certificate which is to accompany it when submitted for sealing to the War Office or Horse Guards, as may be directed.

22. The patterns, if approved, will be again sealed in the usual manner by the Departmental Officer, who will likewise countersign the label or certificate and return it with the patterns.

23. All sealed patterns and specifications will be in the custody of the Inspectors, and all specifications descriptive of sealed patterns are to be prepared by the Inspectors, and each specification is to be signed by an Inspector and a Sub-Inspector previous to being submitted for the approval of the Secretary of State for War.

24. The standard patterns approved by Her Majesty are not to be removed from the room where they are deposited, except upon an order from this office.

25. The duplicate standard patterns as well as the specifications to guide the supply should invariably be shown to the Contractors, and their supplies should be examined by those duplicate patterns; but a sample may be selected by the Contractor on his own responsibility, on the payment of the usual deposit.

26. The Inspectors and Sub-Inspectors will be required to attend during the hours fixed by the Secretary of State for the transaction of public business at the Military Store Department; and any application for leave of absence from their duties is to be addressed to the War Office.

CIRCULAR, No. 886.

War Office, 10th May, 1860.

THE Secretary of State for War, with the concurrence of His Royal Highness the General Commander in Chief, and in consequence of the favorable results of Experiments by the Departmental Chemists and trial by the Superintendent of Small Arm Factories, has approved of the introduction of "*Price's Rangoon Oil*" into the Service, for the preservation of small arms and articles made of metal from oxidation.

This material, which is manufactured by Price's Candle Company, is found to be unalterable, always procurable of a uniform quality, and equal in every respect to the best Sperm Oil, and at the same time more economical.

"*Price's Rangoon Oil for preserving Metal Work*," is therefore to be demanded whenever Oil is in future required by the Departments for use of the Army, and for the preservation of small arms, or for metal work of any description in store, in lieu of Oils of other description hitherto supplied.

CIRCULAR, No. 589.

War Office, 15th May, 1860.

MR. SECRETARY HERBERT has been informed that a diversity of practice exists among the Military Storekeepers abroad with reference to the treatment in their Accounts of Articles received by them in transit and issued to the persons for whose use they are destined.

It is particularly desirable that the Military Store Accounts should be characterized, as far as is possible, by a strict uniformity in all their details.

Mr Secretary Herbert therefore directs that in all cases where articles are sent to the Military Storekeepers abroad, in transit for other departments or persons, such stores are to be included *in a transit List at the end of the Ledgers.*

This list will state the date of the receipt and issue of the articles, and will refer to the numbers of the vouchers by which these are supported.

The packages only will require to be entered where the goods are packed. The articles will be stated in detail where they are not packed.

The receipt of the person to whom the articles in transit are delivered must in every case be produced.

A form of the transit list, to be made out on Ledger Paper, is enclosed for your information.

General No. 28. Stores—1 (1860).

Horse Guards, S. W., 30th April, 1860.

It frequently happens that changes are introduced in the patterns and articles of Military Equipment before trials can be made in all the various climates and circumstances to which they may be exposed;—His Royal Highness The General Commanding in Chief therefore desires that General or other Officers commanding Districts or Divisions at Home and Stations Abroad will forward to the Adjutant-General to the Forces, on the 1st of January and 1st of July in each year, full Reports, in duplicate, on all newly introduced articles of Military Stores, showing the date of receipt of each article at the Station, the nature of the trial to which it has been subjected, the effect of climate, and any further remarks which personal observation and professional experience may suggest.

The first Report will include all articles introduced within the preceding twelve months.

CIRCULAR MEMORANDUM,

Addressed to Infantry.

General No. 30. Field Exercises—1 (1860).

Horse Guards, S. W., 1st May, 1860.

The general principles of Light Infantry movements, as well as the movements of a Company or Battalion when acting as Light Infantry, are laid down in the "Field Exercises," and the right application of these movements in the Field may be studied with advantage in various works by authors of much practical experience; but, in addition to these important points, His Royal Highness the General Commanding in Chief deems it essential that the attention of Commanding Officers should be directed to the necessity of constantly exercising the individual intelligence and judgment of the men under their command when acting as Light Infantry.

The improved range and accuracy of fire of the arms now in general use render it doubly important that every Soldier should, when skirmishing, be prepared to take such advantage of ground and cover as will enable him, with the least exposure of his own person, to inflict the greatest amount of injury on his opponents.

With this view Commanding Officers are enjoined to lose no opportunity of profiting by all suitable ground in the vicinity of their quarters for the instruction of young Soldiers in this important part of their duty, and they should bear in mind that the character of a Regiment, as to its proficiency in Light Infantry movements, depends mainly on the individual intelligence, skill and activity displayed by the men themselves.

It will be found advantageous, where the ground admits, to detach one or more Companies, with their supports, to a distance of about 1,000 yards in front of and facing the Battalion drawn up in line, when they will extend and advance in skirmishing order towards the Battalion, being occasionally halted, in order that the Officers, by examining the back-sight of the rifles, may ascertain that they have been adjusted for the proper distances.

The Officers of the Companies in line will point out to the men of their Companies any error that may be committed by the skirmishers in their advance, and the advan-

tages to be derived from such cover as the ground may present,—from running rapidly from point to point, &c.; the line being in the position of the enemy, the men will soon learn what errors, as regards unnecessary exposure, should be avoided.

Each Company in its turn should be exercised as skirmishers, and be occasionally relieved, advancing and retreating, and the advantage of the new line of skirmishers being completely concealed in the latter movement should be pointed out.

Officers in command of supports, bearing in mind the improved range and accuracy of fire-arms, should also be careful in the selection of their ground, as the fire of the enemy's skirmishers is sure to be directed on any exposed solid body. Supports and reserves, if not under cover, should always lie down when halted.

The attention of the skirmishers should be especially called to the following points:—

Skirmishers, when under fire, must take advantage of all cover. The men of a file should always work together; both men should never be unloaded at the same time,—they should always, when practicable, load under cover,—before moving to the front when advancing, and after falling back when retiring.

Young Soldiers (particularly when first opening fire) are apt to waste their ammunition; its value therefore cannot be too carefully impressed on their minds, and they should be made to understand that the principal advantage of their rifle, viz., accuracy of fire, is lost if, in moving from spot to spot, they do not consider well the distance they are from the object they are about to fire at, and are not careful to adjust the back-sight accordingly.

The files must be careful not to get in front of each other. When small objects, such as trees or rocks, afford cover for a few files only, the men must not crowd behind them in numbers, as they will be safer in the open; here they should load and fire lying, and move rapidly when the advance or retreat renders a change of position necessary, throwing themselves at once on the ground.

Bugle sounds should be avoided as much as possible; the men should be practised at "passing the word," and made to understand signals.

The men should be taught that good cover may be obtained from the slightest rise or fall of ground, more especially when engaged at long ranges; a slight furrow, a few stones or small bushes will often afford cover in the absence of trees, rocks, walls, banks, &c.

Skirmishers should be taught to judge rapidly for themselves of the nature of the ground on which they are acting, and of the best mode of occupying it. In defending a line of heights, the edge of a wood or any ditches, walls, &c., they should follow the windings of the cover instead of remaining in line, taking care to leave no considerable gaps, and not to collect in groups.

A line of skirmishers may be exercised with advantage in passing obstacles such as ponds, farm buildings, &c., the men opposite these obstacles doubling in rear of the files on the right and left, but running out to their proper places as soon as the obstacles are passed.

Before quitting one position each file should decide on the next they intend to occupy, which they should make for in double time; when at close quarters one man of a file should cover the advance or retreat of his comrade while running from point to point, the men protecting each other in turn while exposed.

The fire of skirmishers may often be better employed against the enemy's files on their right and left than against those in their immediate front, who are more likely to be completely covered.

It is impossible for the Officers to place each file of their Companies; the men must be made to understand that they are responsible for the cover each file may select.

They should keep in sight the files on their right and left, and, when the ground permits, should resume the general line of dressing and their proper distances, making use of their own intelligence, without waiting for special directions.

The dressing of a line of skirmishers is a matter of no importance as long as the connection between files is kept up; in advancing or retiring those files having cover should remain in their position until those on their right and left have passed them by fifteen or twenty paces; in advancing files should run on to cover when the general line is within fifty paces of it, holding it as above; the fire of one protected skirmisher is of more value than that of five when exposed.

Whenever opportunities offer Commanding Officers should instruct their men in the mode of making rifle pits, and placing sand bags, sods, &c. on a wall or parapet to fire through; also in the duties of covering parties in sieges, how to keep down the fire of batteries, the advantages of the different modes of firing, kneeling, lying, &c.; in short, no pains should be spared to make each man a thorough and efficient Light Infantry Soldier.

CIRCULAR MEMORANDUM, No. 30—*continued.*

Another important point to which the General Commanding in Chief would take the opportunity of directing the attention of Commanding Officers, both of Regiments and Brigades, is the practice of time marches; *i. e.*, they should direct Companies or Wings or Battalions to occupy a distant position to which several roads lead, some of greater length and easier to march over than others. The heads of these Columns should arrive simultaneously in position, and the time of departure be regulated accordingly.

Small bodies of Troops may accomplish longer marches, even over bad roads, than deeper Columns can accomplish over better roads. Practice will soon enable Officers to ascertain these points, and to calculate almost to a certainty the time required under every circumstance.

By Command, JAMES YORKE SCARLETT,
Adjutant General.

General No. 31. Discharges—2 (1860).

Horse Guards, S. W., 2nd May, 1860.

CONSIDERABLE inconvenience having been experienced on the re-enlistment of Soldiers, in consequence of the Sheet containing the Record of their Service having been, in many cases, removed from the Register, on the man's discharge, and erroneously transmitted with his discharge documents, instead of the Service being completed, as it should be, in the original Record of Service, on the *third page of the Attestation*, His Royal Highness the General Commanding in Chief desires that this irregular practice may be discontinued, and the "Explanatory Directions" in paragraphs 511 to 514, page 152, of the Royal Warrants and War Office Regulations, dated 1st July, 1848, be strictly complied with.

The same embarrassment and trouble have been caused by Defaulter Sheets (ordered, except in the case of invalids, to be preserved for two years after the Soldier's discharge) having been, also erroneously, transmitted with the discharge documents of *others* than invalids; and this practice is to be discontinued.

By Command, JAMES YORKE SCARLETT,
Adjutant General.

General No. 32. Schools and Libraries—2 (1860).

Horse Guards, S. W., 3rd May, 1860.

His Royal Highness the General Commanding in Chief desires that the following mode of conducting the Correspondence connected with the Army School system, and the Barrack Libraries—the general superintendence of which, as announced in the War Office Circular of the 10th of March last, is transferred to the Council of Military Education—may be strictly adhered to by all concerned, viz.:—

All recommendations for the training of Soldiers at the Normal School at Chelsea; and all communications relating to the promotion, transfer, furloughs and discharge of trained Schoolmasters,—and, generally, all questions affecting their *discipline*, are to be addressed to the Adjutant General of the Forces, who will, after conferring with the Council of Military Education, notify the General Commanding in Chief's orders thereon.

Correspondence regarding the School Regulations,—the periodical returns and reports of the Schools,—the appointment and promotion of civilian Schoolmasters, and the training, &c., of Schoolmistresses,—with applications for new books and games for Reading-rooms,—the supply of apparatus for the illustration of lectures for the entertainment and instruction of the Troops,—and the half-yearly and quarterly reports of the state of Libraries—may go direct to the Secretary to the Council of Education. Other questions regarding Barrack Libraries will, as heretofore, be addressed to the Adjutant-General of the Forces.

Adjutant General.

General No. 33. Classification of Soldiers—1 (1860).

Horse Guards, S.W., 14th May, 1860.

WITH reference to paragraph 33, p. 227, of the Queen's Regulations and Orders for the Army, His Royal Highness the General Commanding in Chief desires it may be understood that no Soldier who has been sentenced to the forfeiture of all advantages from *future* service is to be restored to the "first class," until after the expiration of one year from the date of his having been relieved from the consequences of such sentence.

General No. 34. Pioneers—1 (1860).

Horse Guards, S.W., 16th May, 1860.

THE General Commanding in Chief deeming it desirable that the merits of the new Pattern Pioneers' Tools recently issued by the Government to Regiments of Infantry should be ascertained by a practical trial,—Officers Commanding Infantry Corps at Home and Depôt Battalions are requested to cause the Pioneers' Tools in their possession to be fairly tried, and to report the result for His Royal Highness's information.

Adjutant General.

GENERAL ORDER. No. 749.

Instruction of Musketry—1 (1860).

Horse Guards, S.W., 7th May, 1860.

THE General Commanding in Chief has desired that the accompanying table, showing the "Figure of Merit" and the order of precedence as regards proficiency in shooting of the Corps which practised at home and in North America during the year 1859/60 shall be published in the General Orders of the Army, with a view to create emulation among the Corps now going through the annual course for the current year.

The General Commanding in Chief deems the present a fitting opportunity of calling attention to the concluding paragraph of the General Order of the 1st February, 1859, promulgating the new edition of the Musketry Regulations. His Royal Highness regrets to observe that the extra position drill thereby enjoined is not practised in the majority of Regiments as often as it might be. This neglect will tend to lower considerably the standard of shooting, and thereby materially affect the efficiency of the Infantry. Position drill is indispensable to accustom the Soldier to handle his rifle expertly, and to habituate him to those positions, standing and kneeling, on which good shooting mainly depends.

The General Commanding in Chief expects that General Officers on the Staff will take measures for ascertaining that the provisions of the General Order in question are strictly adhered to.

By Order of HIS ROYAL HIGHNESS
THE GENERAL COMMANDING IN CHIEF,
JAMES YORK SCARLETT,
Adjutant General.
